EDUCATION

Northeastern University Boston, MA

Bachelor of Science in Computer Science | Minor in Economics *May 2028*

- **Relevant Coursework:** Algorithms, Machine Learning, Linear Algebra, Object-Oriented Design, Computer Systems, Data Science
- **Campus Activities:** Kaleidoscope Council, Disrupt (FinTech club): Quant Team, Women in Tech

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML/CSS
Frameworks & Libraries: Spring Boot, Flask, React, React Native, Pandas, NumPy, scikit-learn
Tools & Databases: PostgreSQL, OAuth2, REST APIs, JUnit, Git, Ollama, Power BI, Microsoft Graph API, Pinecone, AWS
Additional Training: AWS Academy Cloud Foundations; AWS Academy Cloud Architecting

PROFESSIONAL EXPERIENCE

Northeastern Peer Tutoring Boston, MA

Peer Tutor and AI Initiative Developer *March 2026 - Present*

- Created a tutor resource assistant in Claude Projects, organizing materials and policies from 10+ documents into an interactive interface for new tutors.
- Updated tutor training content across 3 topics, modernizing outdated guidance and adding standards on ethical AI use.
- Tutor 20+ students in Calculus I and II, creating personalized explanations and visual study materials to strengthen their understanding of technical concepts.

Tata Insights and Quants (iQ) Bengaluru, India

Data Analytics Intern *May 2025 - Aug 2025*

- Engineered an ESG perception chatbot using Ollama that synthesized compliance data from 400+ external sources, automating quarterly reporting workflows.
- Designed and built a Power BI dashboard to track seed placement, sales trends, and regional performance across 16 states and 100+ districts, enabling data-driven harvest decisions for FY25-26.
- Conducted intern benchmark analysis comparing benefits with peer companies; synthesized results and presented 5 recommendations to the Head of HR for future talent engagement strategies.

Sattva Consulting Bengaluru, India

Knowledge Institute Intern *May 2024 - June 2024*

- Interviewed 15+ incubators, CSR teams, and founders to identify execution challenges, gaining first-hand exposure to client consulting and stakeholder management.
- Co-authored monthly knowledge publications encompassing CSR trends, incubator challenges, and social enterprise practices to inform client strategy.
- Reorganized a central project database of 300+ initiatives, improving accessibility and reducing retrieval time by 50%.

Hitachi Philippines Manila, Philippines

Digital Operations Intern *May 2023*

- Automated event coordination workflows for 200+ attendee company events reducing manual scheduling and communication overhead for recurring processes.
- Designed digital recruitment materials and managed applicant tracking systems for hiring across 5+ countries.

PROJECT EXPERIENCE

Jag AI Boston, MA

React, Flask, Python, Microsoft Graph API *January 2026 - Present*

- Built a RAG-based personal assistant integrating Microsoft 365 data to generate daily email and calendar summaries and support natural-language document search.
- Implemented OAuth2 authentication and token-refresh logic through Microsoft Graph API to maintain secure, persistent access to personal data.

Personal Finance Tracker Manila, Philippines

Java, Spring Boot, PostgreSQL, REST APIs *December 2025 - February 2026*

- Developed a Java Spring Boot application exposing RESTful APIs to handle 300+ financial transactions, supporting full CRUD operations with Spring Data JPA.
- Designed a normalized PostgreSQL schema with indexed queries and validation rules; separated application logic using a Controller-Service-Repository architecture.

NBA Stat Models: Playmaking Analytics Boston, MA

Python, Pandas, scikit-learn *November 2025 - December 2025*

- Cleaned and normalized 54 years of NBA season data and engineered assist-to-turnover metrics to evaluate generational changes in playmaking efficiency.
- Modeled nonlinear league-wide trends using polynomial regression, achieving an R-squared value of 0.54.

Interests: Chess, Piano, Reading, Pilates
